- Full gas can for your RV
- Zip ties
- Portable sewing kit
- _____

Bonus tips

-Buy good quality LED lights that can be plugged into a rechargeable batter pack (USB powered). Saves you money on disposable batteries
-Glow sticks are just rubbish and won't light you well- even EL WIRE is quite dim on playa (this is why I recommend bright LEDS instead)
-Update the "Time to Burn" App before driving into burning man. It has all events on playa and a map so you can see where you are with the GPS on your phone
-Prepare outfits with accessories and put them together in marked bags so it's easier to get ready and find what you need
-Always bring enough stuff for yourself and a bit more to gift
-Declutter what your bring- so unpackage everything (boxes, unneeded wrapping etc) what you bring in is what you take out
-Spare set of keys that you hide outside your RV in case you lose your set!
